OCT 20, 2023

"• There is currently a unique and rare opportunity to evacuate the entire Gaza Strip in coordination with the Egyptian government. An immediate, realistic and sustainable plan for the resettlement and humanitarian rehabilitation of the entire Arab population in the

Gaza Strip is required which aligns well with the economic and geopolitical interests of Israel, Egypt, the USA and Saudi Arabia. • In 2017, it was reported that there are about 10 million vacant housing units in Egypt, of which about half are built and half are under construction. For example, in the two largest satellite cities of Cairo, "The 6th of October" and "The 10th of Ramadan", there is a huge amount of built and empty apartments owned by the government and privately and construction areas sufficient to house about 6 million residents. • The average cost of a 3-room apartment with an area of 95 square meters for an average Gazan family consisting of 5.14 people in one of the two cities indicated above is about \$19,000. Taking into account the currently known size of the entire population living in the Gaza Strip, which ranges from about 1.4 For approximately 2.2 million people, it can be estimated that the total amount that will be required to be transferred to Egypt to finance the project will be on the order of 5 to 8 billion dollars. • Throwing an immediate stimulus at such a height to the Egyptian economy will provide a tremendous and immediate benefit to al-Sisi's regime. These sums of money, in relation to the Israeli economy, are minimal. Investing a few billion dollars (even if it is 20 or 30 billion dollars) to solve this difficult issue is an innovative, cheap and sustainable solution. • There is no doubt that in order for this plan to come to fruition, many conditions must exist at the same time. Currently, these conditions are met and it is unclear when such an opportunity will arise again, if ever."

"Talking about the military battlefield, one should also stand up in the battlefield of consciousness. The enemy does not care about destroyed buildings and his civilians or fighters killed. It only hurts the enemy to lose land. That is why Israel needs to pass an orderly government decision and inform the world of a policy change: Israel will not initiate a war. But if attacked and forced to fight, Israel will fight with the goal of conquering territory from the enemy, moving the population from it to unconquered territory, immediately officially annexing the occupied territory, destroying it to the core and rebuilding it as the Land of Israel. The enemy knew and everyone knew: from now on Israel will take advantage of the wars that will be imposed on it in order to expand."

"The enemy is not Hamas, it's Gaza. The enemy is not Fatah, it's the arabs in the West Bank. [We should act as] similar to Chechnya, where Russians bombed and flattened Chechnya until chechnyans realize "it's not worth to think in [Islam] [...] There is no innocents in Gaza, when you say civilians - there is no [civilian population], there is 2.5 million terrorists, therefore there is no meaning to "knock on the roof" – the moment the [7th October] happened, in the first 10 hours after we should have eliminated 50 thousand Gazans, and I said that [in many news interviews], I said that on every possible platform. [...] you send planes in four waves and you flatten [the area], this is called a Iranian/turkish model because we are in the middle east, not in the west. We then wake up the next morning, and we have Hasbara, and then have closure. [...] We didn't do that because we don't take an account that HAMAS IS NOT THE ENEMY, BUT ALL OF GAZA IS THE ENEMY."

Rabbis Yitzhak Shapira and Yosef Elitzur explicitly wrote this in their 2009 book *Torat Hamelech* (King’s Torah), claiming that such babies can often be in the way of killing the enemy and that their killing is therefore permitted. "Today I arrived at the Kerem Shalom crossing to participate in a just protest like no other for the closing of the crossing for trucks transporting food, medicine and more for the residents of Gaza and especially for Hamas. At Otzma Yehudit we demand to be an influential part of the limited war cabinet with the understanding that the system is captive

to a wrong conception that must change. It is not possible for the State of Israel to allow aid to the enemy while 136 of our sons and daughters are in the hands of the Nazi oppressor from Hamas. body, that is why a Jew who was murdered in Be'eri makes a Jew who lives in California cry and a Jew who lives in Kfar Saba wears a uniform. We are the sons of Abraham, our father who smashed all the idols in his father's house, who recruited 318 Elite warriors to free Lot's from captivity. We are the sons of Joshua who conquered this land from seven different nations. Remember the Canaanites? The Hittites? The defeats? They have all disappeared from the world and the people of Israel are here to stay. We are a people of bravery and dedication for the people and the country. Remember the hero Samson, Yoav ben Zeruiah, King David, Abner ben Ner, Bar Kochva, Yosef Trumpeldor, Hana Senesh, Yoni Netanyahu, Avigdor Kahalani and dozens of other heroes who died in the last attack and whose story we will commemorate on the wall of our hearts. We returned to our country after 2000 years of painful exile, survived the Holocaust and built a country from the dust of the victims. The UN divided this country between the two of us, but it was more important for them to hate us than to build a future for themselves. And they tried to fight us once and twice and three times and each time again they lost and each time again we won thanks to faith in god and thanks to the heroism of the soldiers and citizens of Israel. Ismail Hania (May his name be erased), their leader said it most clearly "We love death as the Jews love life" They are not only human animals, they are stupid, they give zero hope to their people, only hatred and blood and hell. Note: In a statement regarding a civilian shooting, Israeli military spokesperson Maj. Nir Dinar initially defended the action by claiming soldiers cannot distinguish between militants and civilians due to both using the same vehicles. This comment (later labeled misspeak) highlights Israel's eroding humanitarian protections, as international law requires forces to verify that targets are military before attacking.
